

PERMIT NUMBER _____

**ARROWHEAD IMPROVEMENTS ASSOCIATION, INC.
OUTDOOR FIRE PERMIT**

Our Arrowhead In Gunnison Country Regulations state that “no fires are permitted outside a residence except for cooking and campfires, and then only if properly and safely contained in an appropriate fire pit or barbecue grill. Annual approval of fire pits must be obtained from Arrowhead Patrol personnel. Outdoor Fire Permits are required for a camp fire, chimenea and other devices for containing fires. When weather conditions and fire danger dictate, the Board and the Fire Chief may impose fire bans, which shall be complied with by all owners and their guests. Property owners will abide by the requirements of fire bans for this area by governmental agencies. Trash or garbage may not be burned on any site or within the boundaries of Arrowhead.”

Arrowhead Patrol will expect the following standards to be met before they will issue an annual Outdoor Fire Permit. These standards must be maintained for the duration of the permit or the permit becomes null and void.

The fire site must not be located below overhanging branches that may pose a fire risk.

The bottom and all sides of the fire pit must be made of non-flammable material.

The largest interior dimension within the fire pit should not exceed six feet.

The area below and 30 inches beyond the outer dimensions of the fire pit must be made of non-flammable material.

Anytime a fire is burning, the adult attending the fire must have immediate access to either a charged water hose, 10 gallons of water, or a minimum 10 pound fire extinguisher.

The fire must be completely extinguished before being left unattended unless the entire fire pit is covered with an Arrowhead Patrol Officer approved spark arrestor screen.

Attended means an adult at the fire pit site.

Completely extinguished means no coals too hot to touch with the bare hand.

Gas or charcoal barbecues, when operated according to the manufacturer’s guidelines, do not need an Outdoor Fire Permit. It is recommended an appropriate fire extinguisher be available nearby.

PATROL OFFICER APPROVING THIS FIRE PIT _____ DATE _____

PATROL OFFICER APPROVING SPARK ARRESTOR SCREEN _____ DATE _____

OWNER AGREEING TO ABIDE BY THE ABOVE _____ DATE _____
